

SchoolTech

Excellence in school-based Vocational Education and Training for Year 11 and 12

Real Stories

Real Achievements

Andrea's Story | Electrical

"I had to overcome a fair few obstacles to make it to where I am today. I enrolled into SchoolTech in Year 11 by my own choice. I've always had a passion for electrotechnology as I grew up around family who were in the trade."

"Work experience furthered my interest in the trade. I secured a school-based apprenticeship, as well as winning the Master Electricians Australia Award for Construction School Student of the Year, and also the Australian Vocational Student Prize. My apprenticeship turned full-time once I graduated. Due to the downturn in the economy, it was short-lived. I persevered with knowledge, confidence and excellent work ethic and then secured another full-time apprenticeship."

"SchoolTech gave me confidence and knowledge that helped shape me into the apprentice I am today. I plan to pursue my career of being the best qualified electrician I can be."
